BALTIC OPTICAL DIMENSION

Reading glasses with **VIDE** eyeglass lenses

Do you want reading glasses that could help you read freely, work on documents, and clearly see the image on the screen?

If you answered YES, these lenses are for you!

The advantages of VIDE eyeglass lenses:

- Designed to be worn inside – for reading and working on the computer and other electronic devices
- Excellent quality of vision at medium and far distance
- Provides the opportunity to easily direct your gaze towards nearby objects
- Allows for easy focus on particularly small details
- Manufactured with digression of 0.75D
